PROFILE

Product-focused UX Designer with hands-on experience designing user-centered digital products and solving user and business problems through thoughtful design. Experienced in translating product requirements into intuitive user flows, interfaces, and prototypes while collaborating with product and development teams. Proficient in Figma, with a strong interest in creating simple, scalable, and engaging product experiences.

EXPERIENCE

UX Designer March 2026 - Present
Jaldee Soft Pvt Ltd, Thrissur

- Contribute to product design across the lifecycle, translating user and business requirements into intuitive, scalable product experiences.
- Design and refine product features in Figma, considering usability, consistency, responsiveness, and technical feasibility across web and mobile platforms.
- Collaborate with product managers and developers to define user flows, explore design solutions, and iterate on features based on feedback and product requirements.

UI/UX Designer Intern December 2025 - March 2026
Voxen Tech LLP, Ernakulam

- Conducted user research and testing to guide wireframing and prototyping.
- Built responsive UIs for web/mobile using Figma.
- Created high-fidelity mockups from requirements and feedback.

UI/UX Designer Intern June 2025 - November 2025
Zoople Technologies, Ernakulam

- Learned and applied key UI/UX design principles, gaining practical experience in user research, wireframing, prototyping, and design collaboration.
- Designed user interfaces and improved user experience for web and mobile applications.
- Created wireframes, prototypes, and visual layouts based on user requirements and design guidelines.

Web Developer Intern January 2025 - April 2025
Kerala Police Academy, Thrissur

- Developed and optimized features for attendance tracking and management using PHP and MySQL.
- Improved user interface for better user experience and system navigation.
- Assisted in designing and structuring the database to ensure efficient data management.
- Collaborated with the team on system debugging, testing, and performance enhancement.
